I'd like to donate a book, but wish to have the library select a book.

My child will select a book from a catalog or a website.

Please note: Websites can be used at home or during library/technology classes. The best website for library service and selection has been [regentbook.com](http://regentbook.com). Regent Book Company offers theme pages and an online catalog by author and title. If you are searching for nonfiction book, World Almanac Education has a wider selection by catalog or at [www.waebooks.com](http://www.waebooks.com).
